A close-up photograph of an aloe vera plant in a red pot. The plant's thick, green, pointed leaves are visible on the left side of the frame. The background is a blurred, warm-toned surface, possibly a wall or a piece of fabric, with a pattern of small, light-colored spots. A semi-transparent dark grey horizontal band spans the middle of the image, serving as a background for the text.

COLOR DOES THE TALKING

On occasion, a job falls into your hands that you just can't say no to. In this case we had the opportunity to manufacture at our Mexico facility for a breathtaking new residence in Cancun. The timeline was tight to produce and ship this extraordinary furniture. It needed to be on-site within a month for the opening party already scheduled. The team at HADI went to work and the picture speaks for itself. The party was a hit and the wall-mounted artwork was a fantastic conversation piece.

PRIVATE RESIDENCE

MEXICO

HADI worked with a local artist to provide the colorful tiles that were mounted on-site to a high gloss, sidebar. The designer's intent worked out perfectly, creating a stunning backdrop for this modern dining room with a local flair. Additional items included outdoor dining table and chairs.

Not every project is a 500 room hotel. At HADI, every project, big or small, receives the same amount of professional attention to detail. If you are creating one amazing piece for your public space or hundreds of items for your guestrooms, rest assured that HADI's CAD detailers, Project Managers and Quality Control Professionals will give it their all, every day and on every project.

SWING

FURNITURE

Let your imagination
change any room.

HADI created swing furniture with the eccentric in mind.
How do you change the way a guest experiences
your hotel? Add a swing. Inside or out.
Not only is this design industrial strength but it creates a
relaxing flow and is any room's talking piece.

HOSPITALITY

CUSTOM SPACES

PRODUCT DESIGN

HADI specializes in manufacturing all the furniture components of the hotel guest room and public space.

In addition to wood and metal, we have extensive experience incorporating stone, solid surface materials, and many forms of glass into your custom furniture. We lend our expertise, relationships, and infrastructure to empower our clients to find the best possible solutions for their projects. We understand that it all boils down to quality, value, and execution. Our team of professionals will go the extra mile to make certain you receive top quality products that are within budget and on time. We are always innovating our processes, questioning antiquated practices, and developing new solutions to benefit our customers. The entire HADI team is committed to showing our clients our best, most reliable selves. Day in and day out.

CUSTOM COUNTER TOPS

PRODUCT DESIGN

Custom kitchen counter tops for hospitality, new construction or remodel.

Counter tops produced in quartz, natural stone like granite, quartzite, and marble. Solid surface materials, micro-crystal glass, and other exotic surfaces.

STONE FOR SHOWER ENCLOSURES AND VANITY TOPS

HOSPITALITY VANITY

PRODUCT CONSULTATION

Our team of professionals will help value engineer your products to find the ideal blend of quality, materials, and budget. Our extensive sources allow us to provide alternative materials for each project that put all the tools in your hands to make an informed decision.

ITALIAN MARBLE VANITY

DOUBLE SINK VANITY

We understand our client's needs – we've been on their side of the table. At HADI, every project is extremely important to us. Our dedicated team of professionals is laser focused on project management and quality control to make certain we exceed your expectations project after project.

We also recognize our customer's need for speed. Projects are typically manufactured in eight weeks and landed in at a US port three weeks later. All timelines are presented upfront, with clear dates and milestones for both parties.

At HADI, we are sticklers for quality. We may be fast, but we never sacrifice quality. We have our own QC experts in the factory at all times ensuring that each and every item meets or exceeds our exacting standards. Our QC reports are extremely comprehensive, allowing our customers to see the quality at the factory level and feel confident that their project will always be a success!
