

Hands™

fine handmade carpets since 1881

DESIGN BOOK – VOLUME 2

A legacy that goes back to 1881 when a talented carpet weaving community was discovered by an Englishman, A Tellery. While the ownership changed over time, putting the Patodias at the helm in 1960, the expertise and skill not just in manufacturing but also design became only more refined.

Hands as we know it today was born then.

A close-up photograph of a person's hand with a diamond ring on the ring finger and a metal watch on the wrist. The hand is gently touching a plush, patterned carpet with a mix of grey, white, and red tones. The lighting is soft, highlighting the texture of the carpet and the details of the jewelry.

At the heart of Hands is a set of values that really makes us, us. Originality, craftsmanship, transparency and a desire to achieve impeccable quality, an understanding that every carpet is an expression of individuality and a fine legacy.

To create art that's timeless, that inspires joy, requires an understanding of materials, spaces and restrictions and above all a mastery of design and skill. Over the years we've turned this into a precise science.

The image shows a sophisticated interior space. In the center is a plush red velvet sofa with an ornate gold-colored frame. To its left is a matching armchair. The floor is covered with a vibrant rug featuring a repeating geometric pattern in red and blue. The walls are adorned with a dark, damask-patterned wallpaper. To the right, a white-painted wooden cabinet with glass shelves holds various decorative items, including books and a golden vessel. A small table with a bust sits to the left of the sofa.

# THE HANDS COLLECTION

A handmade carpet is at once a rigorous, systematic methodology and a great freedom of execution enjoyed by the artisans making them. It holds the power to endow whatever space it inhabits with life and soul. In both hand knotted and hand tufted, here are seven unique collections, each a different thread of thought, from contemporary to transitional to organics to the exotic Persian and more.

## THE URBANE

~COLLECTION~

Making the understatement the statement - a range of uber contemporary designs, patterns repeating in pleasantly soothing rhythms. Hand knotted in botanical silk and wool.

All copyright design rights and intellectual property rights existing in our designs are and will remain the property of Hands Carpets & Rugs. Any infringement of these rights will be pursued vigorously.
